	2008	2007
GAAP Cash Flows From Operating Activities	\$ 280	\$ 2,588
April 2007 CMS Premium Payment Received in March 2007	-	(1,514)
Adjusted Cash Flows From Operating Activities (a)	\$ 280	\$ 1,074

- (a) Adjusted Cash Flows From Operating Activities is presented to facilitate the comparison of cash flows from operating activities for periods in which the Company does not receive its monthly premium payments from the Centers for Medicare and Medicaid Services (CMS) in the applicable quarter. CMS generally pays their monthly premium on the first calendar day of the applicable month. If the first calendar day of the month falls on a weekend or a holiday, CMS has typically paid the Company on the last business day of the preceding calendar month. As such, GAAP operating cash flows may vary depending upon which payments are received by the Company from CMS during a particular period. Adjusted Cash Flows From Operating Activities presents operating cash flows assuming that each monthly CMS premium payment was received on the first calendar day of the applicable month.

(a) Certain account balances and financial measures have been presented excluding our AARP business. Management believes these disclosures are meaningful since underwriting gains or losses related to the AARP business are recorded as an increase or decrease to a rate stabilization fund (RSF) and the effects of changes in balance sheet amounts associated with the AARP program accrue to the overall benefit of the AARP policyholders through the RSF balance. Although the Company is at risk for underwriting losses to the extent cumulative net losses exceed the balance in the RSF, the Company has not been required to fund any underwriting deficits to date and management believes the RSF balance is sufficient to cover potential future underwriting or other risks associated with the contract.
